## ☰ TO A POTENTIAL EDUCATOR,

---

I am greatly interested in pursuing a learning opportunity with your company. As a student at NSCC in the IT Systems Management and Security program and having a Bachelor of Arts in Psychology and Linguistics, I already have a unique skill set that I believe aids in innovation. I have also demonstrated, as a diligent student, my commitment and work ethic in any task I am given.

Along with academic experience, my work experience has also aided me in furthering my development as a professional. As a Customer Service Manager, I solve problems, (including IT problems,) and wear many hats and I'm happy to do so. Staying busy, constantly being challenged, and ultimately being open to learning every day are what keep me successful in my role.

I am very excited to continue learning and plan to do so far beyond my work terms and my diploma. I believe my demonstrated determination and work ethic would make me an ideal candidate for either a Co-Op position or work term with your company. I have attached my resume to provide more information of my background.

I am looking forward to engaging with your company,

Courtney Hagen
